

Session 1: Waste tracking update and workshop

Cindy Lee
(SEPA)

Project partners

Stages in the process

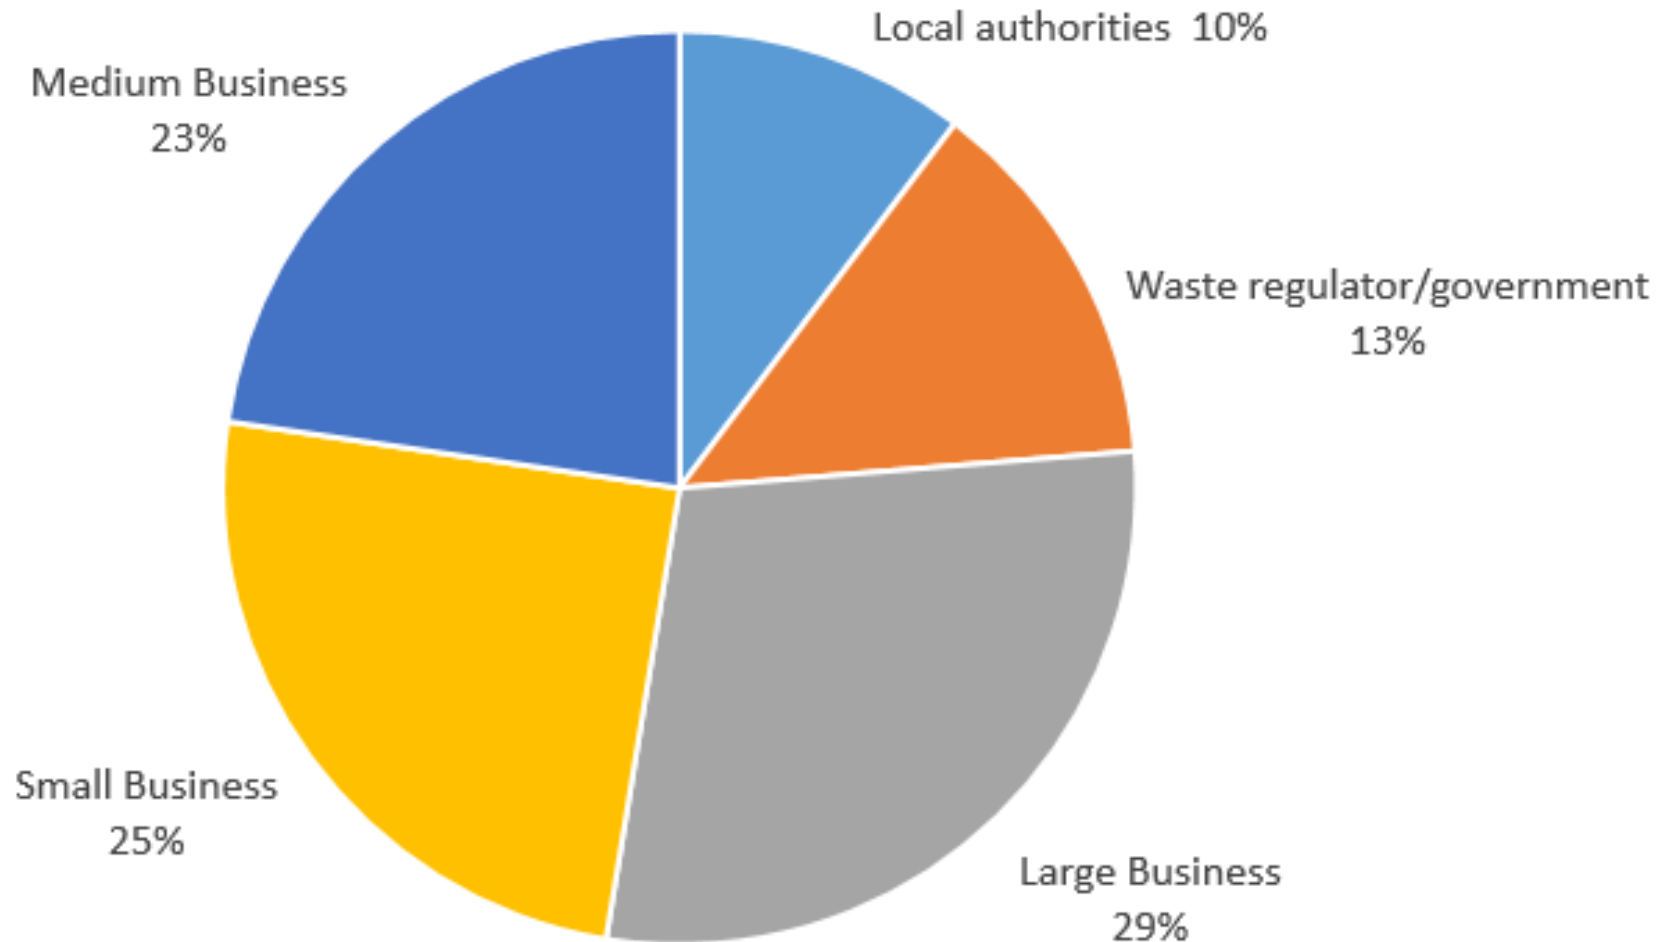

- Discovery
- Proof of concept (GovTech phase 1)
- Building prototype (GovTech phase 2)
- Procuring a solution
- Publishing an open data standard
- Further development of the solution
- Introducing legislative changes
- Roll out

User panel

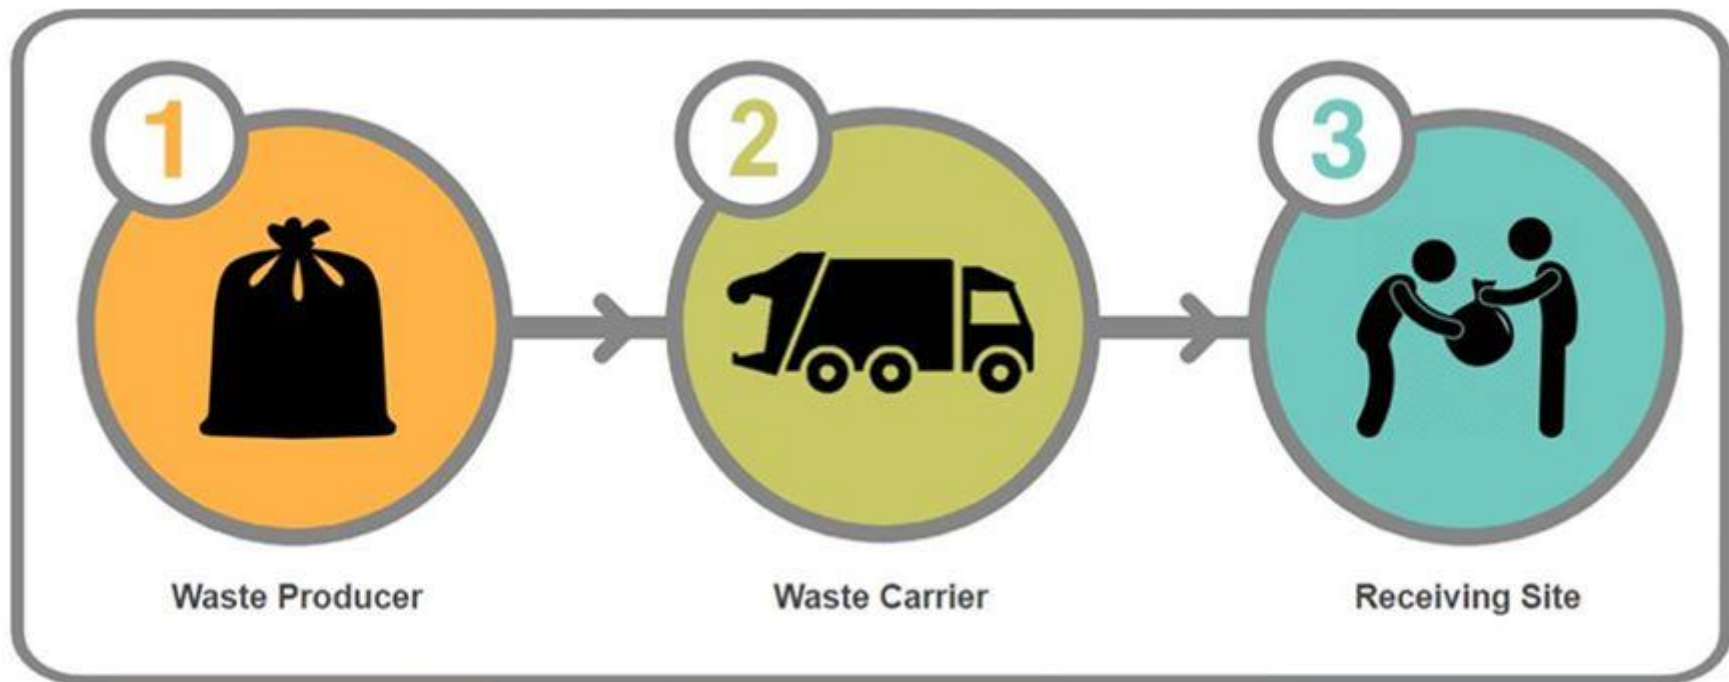

Almost 600 UK businesses signed up

Scottish-based user panel members

How will waste tracking work?

Local Authorities

Question 1: How do you currently track and record waste movements?

Question 2: How could you do this as part of a future waste tracking service?

Businesses and regulators

Question: How do waste management companies currently track and record how waste is managed or treated?
