Data Practitioners' workshop

12th February 2020, Queens Hotel, Perth

09:45 onwards	Registration	Refreshments will be available
10:15	Welcome	Welcome and opening address
10:30	Presentations	(1) Update on progress with Waste Data Strategy action plan from the three partner organisations + Q&A after (2) Update from practitioners on data projects of interest
11:30	Break	
11:45	Session 1	Interactive workshop "*What will waste tracking mean for your work?*"
12:30	Lunch	
13:15	Presentation	"*Opportunities and Challenges for Open Data in Waste*" - Hannah Hamilton, Stirling University (Data Commons in Scotland: Case Study - Waste Management)
13:45	Session 2	Interactive workshop on Data Commons Project
14:45	Closing	Next steps and close
15:00	Finish	

Welcome!

Michael Lenaghan
(Environmental Policy Advisor, ZWS)

Waste data strategy

The aim of this strategy is to identify and deliver Scotland's current and future waste data needs.

Topic sections

Strategy **News** **Reports** **Case studies** **Data** **Delivery**

Waste data is essential for knowing what waste is produced in Scotland, and how and where it is managed. As Scotland moves towards a more circular economy – where products and materials are kept in high value use for as long as possible – this latest waste data strategy outlines five priority actions being taken to improve our understanding of how products and materials flow through our economy.

Presentation

Phil Williams
(Research Analyst, ZWS)

Presentation

Duncan Simpson
(Valpak)

Session 1: Waste tracking update and workshop

Cindy Lee

(SEPA)

Lunch and networking

Presentation

Dr. Greg Singh

(University of Stirling)

Session 2: Interactive workshop on Data Commons project

Dr. Hannah Hamilton

(University of Stirling)

Next steps and close

- Thank you for coming and taking part.

- Your input today will feed into the WDS action plan and waste tracking project.

- Presentations and outcomes from today will be published on SEWeb.

- We welcome feedback and input at any time.
