@zerowastescot

Background

- During 2019-20 ZWS and the WDSB developed a full business case for a new programme of waste composition analysis (document on ZWS website shortly)
- Including household waste, commercial waste and wastes for disposal..
- ...Household waste programme – originally planned to start in Sept 2020, delayed by Covid-19

Household waste programme 2021-23

- Is underway...
- Current ZWS programme plan for 2021-22 includes budget for funding local authority studies
- Scotland excel framework for procuring WCA contractors
 - Invitation to tender (PCS) currently live until 19th March
 - Framework live summer 2021

Household waste programme 2021-23 contd...

- To support procurement and project delivery:
 - ZWS project manager role
 - ZWS analyst (household sampling design using census data)
 - Updated guidance on conducting household waste studies
- Engaging with local authorities in the coming months

Thank you.
